

# J Type Thermocouple Chart

With a type J thermocouple (Fe-CuNi), you measured a thermoelectric voltage of **-7,482**  $\mu\text{V}$  and would now like to know what temperature this corresponds to. Answer: **-183**  $^{\circ}\text{C}$

Thermoelectric voltage as per DIN EN IEC 60584-1

$\theta$ in $^{\circ}\text{C}$	Thermoelectric voltage in $\mu\text{V}$										$\theta$ in $^{\circ}\text{C}$
