

K Type Thermocouple Chart

With a type K thermocouple (NiCr-Ni), you measured a thermoelectric voltage of **-5,606** μV and would now like to know what temperature this corresponds to. Answer: **-183** $^{\circ}\text{C}$

Thermoelectric voltage as per DIN EN IEC 60584-1

θ in $^{\circ}\text{C}$	Thermoelectric voltage in μV										θ in $^{\circ}\text{C}$
	0	-1	-2	-3	-4	-5	-6	-7	-8	-9
